Commonly asked credentialing questions:

--I have no pending malpractice claims.

--I had one settled malpractice case in '98 and none since then. The case involved a sensory nerve injury that occurred during a carpal tunnel release done in '96. Even though injury was recognized and repaired and patient was having recovery of symptoms, lawsuit was filed and we chose to settle. National Practitioner Data Bank self-query report can be provided upon request.

--My professional liability insurer has never limited my coverage or refused renewal of my policy.

--I have never been restricted from doing any certain procedures.

--My medical licenses have never been restricted or revoked.

--I have never withdrawn a license application from a State Board.

--My hospital privileges have never been restricted.

--I have never withdrawn my application for medical staff membership at any facility, nor have I ever voluntarily surrendered my privileges.

--I have never had my DEA suspended or revoked.

--I have never had revoked any professional memberships, been placed on probation, nor have I been excluded from participation in any health plan.

--I have never been terminated from any employment position (aside from our group in Albany going out of business).

--I have no issues that I think will negatively impact my ability to function as a physician.

--I have no criminal record and do not use drugs.
